ALAELDEEN ALBUSHRA MOHAMED ELHASSAN OMER

Quality Control & Food Safety Officer | Food Microbiology Specialist

Riyadh, Saudi Arabia · +966 59 172 3483 · aladeen35@gmail.com · linkedin.com/in/aladeen35
aladeen35.github.io/test/alaeldeen
Nationality: Sudanese · Languages: Arabic (native), English (intermediate)

PROFESSIONAL SUMMARY

Food Science and Technology graduate with hands-on experience since 2020 in quality control, food safety and food microbiology across catering, healthy and medical meal production (including hospital kitchens), and multi-branch beverage service operations in Saudi Arabia. Experienced in applying HACCP principles, ISO 22000:2018 and ISO 9001 requirements, microbiological testing, hygiene inspections and supplier control. Strong record of standardizing processes, reducing waste and keeping documentation audit-ready. Author of "Stolen Gold", a book on turning Sudan's raw materials into safe, competitive food products. Practical user of AI tools and prompt writing to speed up reporting, training material and digital quality tools.

CORE COMPETENCIES

- Food safety management systems: HACCP, ISO 22000:2018, ISO 9001
- QC/QA of raw materials, in-process and finished products
- Food microbiology: sampling, microbial culture, chromogenic media (CHROMagar), swabs, shelf-life checks
- Hygiene and sanitation, pest-control awareness, correct use of cleaning chemicals
- Temperature control, cold-chain monitoring and CCP verification
- Supplier and incoming-goods inspection; storage and handling standards
- Recipe development, menu standardization and portion control for dietary and medical meals
- Internal auditing, nonconformity reporting and CAPA
- Staff training on food safety and personal hygiene (certified Train the Trainer)
- Customer complaint investigation and recurrence prevention

PROFESSIONAL EXPERIENCE

Quality Officer — Half Million (Beverage Services) — May 2025 – Present

- Manage day-to-day quality control for beverage preparation, packaging and delivery across branches, so products reach customers within the required quality and temperature standards.
- Monitor compliance with SFDA food safety regulations and internal HACCP-based procedures.
- Conduct hygiene inspections, verify cleaning schedules and follow up corrective actions with branch teams.
- Coordinate with operations, supply chain and customer service to resolve quality complaints and prevent recurrence.
- Maintain quality records, inspection reports and training documentation ready for internal and external audits.

Quality Officer — Diet Center Company, Saudi Arabia — October 2021 – May 2025

- Developed and implemented recipes for daily healthy meals, dietary programs and specialized menus for sports clubs, hospitals and clients with special nutritional needs.
- Enforced quality standards across production, handling, storage and distribution.
- Carried out routine inspections, temperature checks and microbiological sampling.
- Worked with cross-functional teams to optimize production flow, streamline inventory and reduce food waste.
- Trained kitchen and packing staff on hygiene, allergen control and correct documentation.
- Contracted by Diet Center to manage the quality of the kitchens inside Dr. Sulaiman Al Habib Medical Group hospitals: food safety, clinical nutrition and patient food services.

Quality Officer — SHATIC Hotel and Tourism Services — March 2021 – September 2021

- Managed production of meals and daily rations for remote work sites with timely delivery and consistent quality.
- Coordinated catering for weddings and large events while maintaining food quality and presentation.
- Implemented quality control for food safety and hygiene through production and service.
- Supervised storage conditions, stock rotation (FIFO) and supplier deliveries.

Quality Management Trainee — Coca-Cola Sudan — Dal Group — 2020

- Hands-on quality management training in a beverage manufacturing environment (training certificate).

EDUCATION

Bachelor of Agriculture — Food Science and Technology
Al-Zaim Al-Azhari University, Khartoum Bahri, Sudan | 2014 – 2021
GPA 3.0 / 4.0 — Second Class, Division One (Very Good)

PUBLICATIONS

- "Stolen Gold: Towards an Industrial Renaissance of Sudan's Resources" — a roadmap for quality systems and modern processing of crops and livestock. First edition, 2026, 62 pages, Dar Al-Namaa for Knowledge & Development, Khartoum.
- "The Return of the Kingdoms" (Part One) — published online as a flipbook.

DIGITAL PROJECTS

- Bilingual professional website and "Quality Lamp" learning platform: food safety lessons with quizzes, 27 interactive quality tools (HACCP plan builder, NCR, RCA/CAPA, risk matrix, CFU calculator, KPI dashboard and more), a quality dictionary, a reference library and an AI assistant — built with AI assistance: aladeen35.github.io/test/alaeldeen

TECHNICAL AND DIGITAL SKILLS

- Microsoft Office: Word, Excel, PowerPoint, Outlook — proficient (ICDL certified); data entry, charts and digital reports
- Food safety applications and digital checklists: HACCP logs, temperature and cleaning records
- AI in the workplace: ChatGPT, Claude, Gemini, Copilot for reports, SOPs, checklists, training material and Arabic–English translation; prompt engineering; reviewing AI output with attention to data confidentiality
- Laboratory techniques: media preparation, plating, incubation and result interpretation
- Graphic design, photography, content creation; certified drone operation

CERTIFICATIONS AND TRAINING

Food safety and quality

- Level 3 Food Safety — Highfield (NDC internal)
- Level 2 Food Safety — NDC internal
- ISO 22000:2018 Food Safety Management System — NDC internal
- Food Safety Management System (ISO 9001)
- Total Quality Management in Food Fields
- Management of Food Contamination and Hygiene
- Risk Management in Industry Fields
- Quality Management Training — Dal Company / Coca-Cola
- Microbiology Media — CHROMagar; advanced microbial culture and analysis
- Cleaning Products Orientation and Applications
- Health and Nutrition Education; Health and Nutrition Management
- Food Bank Organization — food security and distribution practices

Professional development

- Train the Trainer (TOT) — Winy Center
- ICDL — Alafra Center
- YouTube Creator Academy — filming, content creation, live broadcasting
- Drone Course — King Khalid University

ACHIEVEMENTS

- Author of the book "Stolen Gold" (2026).
- Patent Certificate — Sudanese Ministry of Intellectual Property: production of lentil-based biscuits ("Hemo").
- Hult Prize Regional, Al-Zaim Al-Azhari University — Social Entrepreneurship Challenge participant.
